The complication of tonic, alterative a stimulating properties in Hostetter's Stom-

storatives. Procautions Against Sickness, with this, our first drawing, than we expected, and are therefore fully en-expected, and are therefore fully en-couraged that we will make a perfect public library in any of its depart-causes of disease depends upon its vigor and ments. They are disinterested citizens- upon the regularity with which the several organs perform their functions. In the winter the most prolific sources of sickness are damp and cold, and it is therefore wise and prudent to fortify the system against them 18@18%;c; wet salted, selected, 9c; dry without y wholesome stimulation. Hence it is that grub, selection, 164c. Hostetter's Stomach Bitters prove such an admirable safeguard against the complaints ost common at this season. The ingredi- | tive. Sales 2009 bales, last evening 1500 bales Ordinary Higgs good ordinary higgs low

most common at this season. The ingredi-cents of this powerful vegetable invisorant comprise three essential medicinal elements which act simultaneously upon the digestion, the circulation, the secretions and the nerves infusing strength and regularity into all. In this way the Bitters put the body in the best possible condition to escape an attack of regumatism, or intermittent fever, or indi-gestion, or bilicusness, or of pulmonary dis-case. Cold and damp are very depressing almost as much so as excessive heat, and a permanent. There is no reculsion, no reverse nervous action. The physique is strengthen-ed, the appetite increased, the lowels regula-ted, the stormed reinforced, and these condi-tions contine. If despepsial or rineumatism, or biliousness, or interingtient lever, or gen-eral debillty, or nervous weakness, is present in the system, expel it with this pure and harml se antidote, which is not only invalu-able as a preventive of stekness, but also a remedy for a large class of disorders.
